

# WANTED

All the wild species you can see  
in your everyday life.

## Join Rutgers' 11th PERSONAL BIOBLITZ 2024

**When?** 76 days, 1 March to 15 May 2024, 24/7, anywhere on Earth.

**How?** Discover, see, listen, photograph, identify and learn (and get help to identify, beginners welcome!), upload to iNaturalist and our project.

**Why?** Learn more about what lives right around you - birds, plants, microbes, algae, fungi (molds!), insects, mollusks, mammals...

**Who?** Anybody associated with Rutgers University in any way (incl. friends and family of Rutgers' people and more, see website).

**What?** Any wild species anywhere in the world that you personally experience (special rules apply, see website). Explore the total global wild biodiversity around you.

*All species observed as part of this project on iNaturalist will be added to the growing amount of community science observations that are being used for global biodiversity science and new discoveries.*
