

WANTED

All the wild species you can discover
in your everyday life.

Join the Rutgers' 2019 PERSONAL BIOBLITZ

When? 76 days, 1 March to 15 May 2019, 24/7, anywhere.

How? Discover, See, listen, photograph, learn, identify (and get help to identify, beginners welcome!), upload to iNaturalist and our project.

Why? Learn more about what lives right around you - birds, plants, microbes, algae, fungi, insects, mollusks, mammals...

Who? Anybody associated with Rutgers University (including friends and family of Rutgers' people).

What? Any wild species anywhere in the world that you personally experience (special rules apply, see website).

All species seen on Rutgers areas will also automatically be added to the Flora and Fauna of Rutgers University project on iNaturalist – which campus has most species?
